The Power of Trust in the Workplace

Bruce Lee is an event speaker, productivity coach, MC and author. His passion is helping moving people ahead by a focus on leadership performance and people skills. Organizational growth can be measured through improved utilization numbers arising from new strategic planning that directly effects bottom line results, an increase in market share and employee and customer loyalty and retention, - creating a culture where customers and staff do not want to leave.

As an international speaker for over 28 years, Bruce brings a hands on, 'been there - solved that' approach to the challenges we all face from time to time.

Please join us on Monday March 20th, 2017 as we come together to learn about the power of trust in the workplace!
